

# Rocky Mountain Geology

Volume 44, Number 1, Spring, 2009

## CONTENTS

	Page	
<i>Philip L. Johnson and David W. Andersen</i>	1–16	Concurrent growth of uplifts with dissimilar orientations in the southern Green River Basin, Wyoming: implications for Paleocene–Eocene patterns of foreland shortening
<i>Brian S. Penn and David A. Lindsey</i>	17–32	$^{40}\text{Ar}/^{39}\text{Ar}$ dates for the Spanish Peaks intrusions in south-central Colorado
<i>Dennis R. Ruez, Jr.</i>	33–70	Framework for stratigraphic analysis of Pliocene fossiliferous deposits at Hagerman Fossil Beds National Monument, Idaho
<i>Andrew L. Darling, Karl E. Karlstrom, Andres Aslan, Rex Cole, Charles Betton, and Elmira Wan</i>	71–83	Quaternary incision rates and drainage evolution of the Uncompahgre and Gunnison Rivers, western Colorado, as calibrated by the Lava Creek B ash
