

Rocky Mountain Geology

Volume 48, Number 2, Fall 2013

IMPORTANT NEWS!

Rocky Mountain Geology will become solely an electronic journal beginning with v. 50, no. 1 (Spring 2015). Opportunities for diverse forms of graphics and supplemental materials will be greatly enhanced. The final printed issue of *Rocky Mountain Geology* will be v. 49, no. 2 (Fall 2014).

CONTENTS

	Page	
<i>Stephen T. Allard and Douglas H. Portis</i>	73–99	Paleoproterozoic transpressional shear zone, eastern Black Hills, South Dakota: Implications for the late tectonic history of the southern Trans-Hudson Orogen
<i>Steven M. Cather, Kate E. Zeigler, Greg H. Mack, and Shari A. Kelley</i>	101–124	Toward standardization of Phanerozoic stratigraphic nomenclature in New Mexico
<i>Troy Schinkel and Michael C. Wizevich</i>	125–141	Silicified layers within the Paleogene volcanoclastic Brian Head Formation, southern Utah: Insights into the origin of silicified beds in nonmarine strata
<i>William A. Clemens and Jason A. Lillegraven</i>	143–167	Interpreting stratigraphic relationships and Laramide structural history of the northeastern margin of the Hanna Basin (Wyoming): <i>Meniscoessus</i> (Mammalia, Multituberculata) exposes its faults
<i>Donald W. Tomlinson, Peter Copeland, Michael A. Murphy, and Thomas J. Lapen</i>	169–183	Oligocene shortening in the Little Burro Mountains of southwest New Mexico
<i>Kaitlin I. Singer and R. V. Fodor</i>	185–210	Petrology of Stewart Mountain basalt field in central Arizona, U.S.A.: A lithospheric source with small-scale trace element and isotopic heterogeneities

Editors: Arthur W. Snoke and Jason A. Lillegraven

Managing Editor: Brendon B. Orr
