

Rocky Mountain Geology

Volume 49, Number 2, Fall 2014

IMPORTANT NEWS!

Rocky Mountain Geology will become solely an electronic journal beginning with v. 50, no. 1 (Spring 2015). Opportunities for diverse forms of graphics and supplemental materials will be greatly enhanced. This is the final printed issue of *Rocky Mountain Geology*.

CONTENTS

	Page	
<i>Joshua E. Johnson, David P. West, Jr., Cailey B. Condit, and Kevin H. Mahan</i>	91–114	Strain localization in the Spanish Creek mylonite, Northern Madison Range, southwest Montana, U.S.A.
<i>Paul K. Link, Robert C. Mahon, Luke P. Beranek, Erin A. Campbell-Stone, Ranie Lynds</i>	115–136	Detrital zircon provenance of Pennsylvanian to Permian sandstones from the Wyoming craton and Wood River Basin, Idaho, U.S.A.
<i>Ernest H. Gilmour</i>	137–165	Bryozoa of the uppermost Gerster Limestone (late Wordian, Permian), Medicine Range, northeastern Nevada, U.S.A.
<i>Majie Fan</i>	167–190	Reservoir stratigraphic heterogeneity within the Lower Cretaceous Muddy Sandstone in the Powder River Basin, northeast Wyoming, U.S.A.: Implications for carbon dioxide sequestration
<i>John C. Reed, Jr. (with contribution by Carol D. Frost)</i>	191–199	Thinking Back

Editors: Arthur W. Snoke and Jason A. Lillegraven

Managing Editor: Brendon B. Orr
