

Rocky Mountain Geology

Volume 43, Number 2, Fall, 2008

CONTENTS

	Page	
<i>K. E. Zeigler, S. Kelley, and J. W. Geissman</i>	121–141	Revisions to stratigraphic nomenclature of the Upper Triassic Chinle Group in New Mexico: New insights from geologic mapping, sedimentology, and magnetostratigraphic/paleomagnetic data
<i>M. Cassiliano</i>	143–154	<i>Stenomylus (Stenomylus) taylori</i> , sp. nov. (Stenomylinae, Camelidae), from the early Miocene (Hemingfordian) Blick Quarry in New Mexico
<i>H. E. Ross and M. D. Zoback</i>	155–169	Sub-hydrostatic pore pressure in coalbed and sand aquifers of the Powder River Basin, Wyoming and Montana, and implications for disposal of coalbed-methane-produced water through injection
<i>C. E. Campbell, B. N. Pearson, and C. D. Frost</i>	171–197	Strontium isotopes as indicators of aquifer communication in an area of coal-bed natural gas production, Powder River Basin, Wyoming and Montana
<i>K. R. Aalto</i>	199–214	Israel Cook Russell—explorer, geomorphologist, geographer, educator
